REFERENCES

AES team has carried out such exercises in an effective manner when a well known CFB Boiler company wanted to enter the Indian market. Apart from analyzing the market potential, AES has recommended a comprehensive strategy for sustained business operation.

AES team has also carried out a due-diligence when an American Boiler OEM wanted to gain an entry in the fast growing Waste to Energy market in South East Asia. A comprehensive study covering the strengths, opportunities, limitations and threats for the company along with a practical suggestion on business strategy has helped the company to take the correct decision.
